# Medicated **skin care**

for the whole family!

## **DERMASENCE is “Brand of the Century”**

DERMASENCE has been setting standards in medical skin care for over 25 years. In November 2018, DERMASENCE received the prestigious “Brand of the Century” award. This is the second time that DERMASENCE has been part of the brand compendium published by Dr. Florian Langenscheidt, which appears every three years. Under the title “German Standards – Brands of the Century 2019”, approximately 200 leading brands will be presented in their segment – a show of performance for the German economy in book format.

## What does DERMASENCE stand for?

### Innovative products and dermatological expertise

Medicated skin care products by DERMASENCE are developed in close cooperation with dermatologists. Many years of experience and the implementation of innovative ideas have led to the creation of a programme that supports the preservation of healthy skin and the regulation of its functions. It offers the right care for every skin type, even for the most sensitive skin.

### Very high tolerance

The selected active ingredients, how they are combined and the products' particularly good skin tolerance ensure that your skin receives the best possible care – even if you have problem skin. Our products combine highest quality, pharmacologically-proven, active ingredients with modern recipes.

For skin care and regeneration for example evening primrose oil, hyaluronic acid and selected vitamins are used; for their calming effects we use witch hazel and the particularly well-tolerated bisabolol. Whether your skin is normal or dry and sensitive, prone to allergies, oily or exposed to natural ageing processes – our products are perfect for all your care needs.

Day by day – from head to toe.

## DERMASENCE – Competence for your skin:

- Innovative products
- Modern active ingredients, intelligently combined
- Considerate to sensitive skin
- No harsh fragrances
- Regulation of the skin's pH value

Your DERMASENCE team

## Cleansing

### Important care basics

**!** Gentle cleansing that is tailor-made for your skin type is an important prerequisite for healthy skin: It removes impurities, makeup, cream residues and the daily stresses your skin is exposed to due to environmental influences.

Any care product applied after cleansing can then develop its full effects. The adjustment of the skin's pH value is also very important, as the latter can be affected after contact with water and in sufferers of very dry or oily problem skin. Skin-friendly cleansing products support the regeneration of the skin's protective layer – gentle cleansing should therefore be carried out in the morning and evening.

#### Products cleansing

##### Mousse Reinigungsschaum

A cleansing foam with modern, latest-generation, active ingredients cleans deep into the pores. Recommended for skin that is impure and or in need of activation. Thanks to the optimisation of the skin's pH value it contributes to the regeneration of the skin's protective acid mantle and refines its appearance. Without propellant.

##### BarrioPro Reinigungsschaum

A soothing cleansing foam for the face and body. It enables mild yet effective cleaning, keeps sensitive skin supple and moisturises it daily. Skin that is prone to redness and itching will suffer from fewer irritations.

##### Reinigungsmilch

It gently removes makeup, dirt and sebum from your skin. The cleansing milk's cooling and refreshing effects are particularly good for the dry, sensitive skin on your face. It restores lipid levels and keeps the skin supple. Skin-calming substances prevent irritation.

## Products cleansing

### Tonic

The moisturising facial tonic water refreshes and soothes skin after cleansing. It regulates the pH value and is very well tolerated thanks to its low alcohol content. Also suitable as a mild aftershave.

### Face Peeling

With its rounded, plant-based micro beads, the cream peeling gently removes surplus dead skin cells. The complexion is improved and the skin's moisture levels receive a boost. Avocado oil, vitamin E and panthenol pamper the skin.

### Wasch- und Duschlotion

The skin-neutral Syndet thoroughly cleans the skin without irritating it. It contains lipid-level-restoring substances that preserve the skin's natural protective acid mantle and nourishes with dead sea minerals.

## Day and night care

### Face

**!** Sensitive facial skin requires care that is tailor-made to your skin's individual needs, skin type and age. Furthermore, it requires intensive protection against environmental stresses and UV rays. Very dry or oily skin in particular requires extra care.

#### Products day and night care

##### Cream Soft

The light gel cream has been specially designed to nourish combination and oily skin. It has pore-refining and calming effects thanks to its special active ingredients. The non-comedogenic formulation sinks in quickly and stops skin from looking greasy or shiny.

##### Cream Soft LSF 30

The unscented daily care product with high-level UV protection is ideal for daily use on sensitive, greasy skin prone to blemishes. The innovative UVA/UVB filter system protects the face, neck and décolleté against UV-related skin damage, also caring for the skin's deeper layers. Glycerine, bisabolol, panthenol and vitamin E moisturise, soothe and care for the skin. The gel cream is quickly absorbed, and can also be used by those prone to rosacea and Mallorca acne.

##### PhytoClare

The tallow-forming gel cream, for greasy, acne-prone skin, has a calming and matting effect. It prevents impurities and pimples. In the long term, the pores look finer and the skin clearer. An innovative complex of dyer's woad and other plant extracts which has anti-inflammatory properties. The light gel formulation with Zinc PCA is absorbed quickly, is ideal as a foundation for make-up and can also be used in conjunction with therapy.

## Products day and night care

### Cream Rich

The moisturising cream nourishes the skin with a vitamin complex and natural lipids. It gives skin a fresh appearance thanks to hyaluronic acid, radical catchers mitigate negative environmental influences. Suitable as a day care product for dry, sensitive skin and as a night cream for combination skin.

### Cream Rich mit LSF 15

Day care cream with UVA / UVB broad band filter system protects dry and sensitive facial skin against the sun's harmful rays. It nourishes with panthenol, vitamin E and hyaluronic acid and moisturises. High-quality oils support the skin's barrier function.

### Cream + Mask

Intensive care for optimum nutrition of dry and sensitive skin. It nourishes skin with a combination of active ingredients including evening primrose oil and hyaluronic acid as well as panthenol and jojoba oil. Its vitamin complex makes it an ideal day and night cream that can also be used as a facial mask.

### Cream Extra

The lipid cream with natural oils gives the skin a fresh appearance, nourishes and stores moisture with its active ingredient combination of panthenol, corn oil and evening primrose oil. The cream is especially recommended for dry and very dry skin as well as for skin prone to neurodermatitis. It is also an ideal care product for use in winter that will protect against damage from the cold.

## Sun protection

### Face and body

„The sun canopy for healthy skin“ – DERMASENCE Solvinea products offer a combination of protection and care. A UV-A and UV-B broadband filter system protects the skin from harmful UV rays and at the same time provides it with moisture. Integrated IRA cell protection acts as a radical scavenger and reduces oxidative stress. In addition, the products are particularly compatible and therefore also suitable for sensitive skin, acne aestivalis and sun allergy sufferers. All Solvinea products are fragrance-free and non-comedogenic. There is no whitening effect when applying the products.

DERMASENCE Solvinea products are formulated in an ocean-friendly manner and therefore conform to the Hawaiian reef law.

### Products sun protection

#### Solvinea LSF 30

The sunscreen emulsion offers high UV-A and UV-B protection through a modern broadband filter combination. The special formulation offers immediate protection. The radical scavenger vitamin E cares for the skin, glycerine moisturises it. The light texture is quickly absorbed and leaves no white film on the skin. It is nano- and perfume-free and is also suitable for sensitive skin as well as for children from 3 years.

#### Solvinea Med LSF 50+

The light gel cream with extra-high UV-A/UV-B protection is suitable for sensitive and greasy skin as well as skin susceptible to blemishes. It protects areas particularly exposed to the sun, such as the face, neck, décolleté and hands, against UV-related skin ageing. The unscented sun protection cream is easy and pleasant to apply, and is ideal for those prone to allergies and Mallorca acne. Bisabolol, panthenol and vitamin E care for and soothe the skin, leaving it feeling healthy and glowing.

PPD = 28 (Information on UV-A protective effect).

## Products sun protection

### Solvinea Spray LSF 50+

This sun spray for the whole family offers very high UV-A and UV-B protection for the skin, which reaches into the deeper skin layers. It is especially good for sensitive children and adults. The radical scavenger vitamin E protects the cells, and glycerin moisturises the skin. The spray allows for quick application. The light texture is quickly absorbed, is not sticky and leaves no white film on the skin. Its formula is perfume-free and marine-friendly.

### Solvinea Baby LSF 50

The sunscreen emulsion offers high UV-A and UV-B protection for sensitive children's skin. The radical scavenger vitamin E additionally provides cell protection and nourishes the skin. Glycerine and shea butter protect the sensitive skin from drying out. The emulsion is therefore also suitable for use in atopic dermatitis. The light texture spreads well, is quickly absorbed and leaves no white film on the skin. The emulsion's formula is perfume-free and marine-friendly. PPD = 27

### Solvinea Liquid AK LSF 30

The transparent, ultra-light sun protection specially developed for the scalp offers high UV-protection and protects UV-sensitive areas of the scalp from the negative effects of sunlight. It serves to prevent light-induced skin ageing and actinic keratoses. A complex of panthenol and glycerin moisturises and nourishes the skin. Vitamin E provides additional cell protection. The sunscreen is easy to apply, is not greasy and is quickly absorbed. The formula is perfume-free and it is dermatologically tested. Also suitable for athletes.

## Anti-Ageing

### Face and eyes

#### The skin changes

**!** As we get older the skin's regenerative capacity and natural elasticity decrease. Its ability to retain moisture declines; the skin becomes thinner and often dryer, too. Its elasticity decreases, the first fine lines appear around the eyes and the mouth area. Depending on the individual's predisposition these natural processes can take place sooner or later and be more or less pronounced. Fine lines turn into wrinkles.

#### There is something you can do

**!** Optimum and consistent skin care keeps your skin looking younger. The sooner you start the better. But there is even more you can do: A healthy lifestyle supports a glowing complexion. This includes enough sleep, sport and plenty of fresh air. A balanced, vitamin-rich diet and drinking two litres of mineral water, juice or tea a day also help. Stress, alcohol and nicotine, however, irritate the skin – reduce these factors and your skin will thank you by looking younger.

## Anti-Aging

### Hyalosome Konzentrat

#### Targets wrinkles

The unique concentrate with anti-ageing peptides is a highly effective care fluid that combats expression lines on the face, fine lines on the neck and décolleté and acts like Botox applied from the outside. Liposomes and hyalurone plump up the skin and in combination with jojoba oil increase its elasticity. The concentrate contains vitamin A, which stimulates cell regeneration; vitamin E and beta-glucan make the skin fit to face the world around you. Ideal for aesthetic procedures.

## Anti-Aging

### Eye Cream

The hydrating eye care product for the sensitive, dry eye area increases skin elasticity with precious oils, moisturisers and vitamins. The formulation with anti-ageing effect (centella asiatica extract) effectively combats the development of fine lines. The fragrance-free cream revitalises the eye area especially during the night. Suitable for contact lens wearers and those who suffer from eczema on the eyelids.

## Anti-Ageing

### Chrono retare

#### Hormonal changes

**!** Hormonal changes in the body during the menopause also have an effect: The skin becomes thinner, drier and fine lines can turn into wrinkles. As our oestrogen production declines the skin's collagen stores decrease, too. Furthermore, the sebaceous and sweat glands' productivity also declines, which leads to a reduction in the hydrolipid film's protective function: The skin dries out more quickly and becomes more sensitive.

DERMASENCE products offer a well-coordinated and effective anti-ageing programme. They are often used by dermatologists as part of an accompanying care regime after aesthetic procedures.

## DERMASENCE Anti-Aging

### Chrono retare Anti-Aging-Serum

#### Regenerative serum for mature skin

The skin's ageing process is influenced by a combination of internal and external factors, and is also expedited by environmental factors such as UV rays. DERMASENCE Chrono retare anti-ageing serum counteracts these effects at several levels, and promotes healthy skin. Olive leaf extract protects the cells and reduces premature skin ageing processes. Highly-dosed hyaluronan provides intensive moisture, leaving the skin looking fuller and smoother.

The ultra-rich texture protects the skin's natural barrier and has a soothing and regenerative effect. The serum promotes the skin's natural radiance and, when used daily, can complement your skin care programme.

### Chrono retare Anti-Aging-Augenschutz

#### Regenerative and anti-swelling eye care cream

DERMASENCE Chrono retare eye care cream counteracts swelling and dark circles under the eyes, and preserves the beautiful appearance of the skin in the eye area. The complex, which contains caffeine and an anti-ageing peptide, has an anti-swelling effect and ensures tauter skin around the eyes. Regenerative active substances maintain the eyelids' elasticity long term. Hyaluronan provides intensive, lasting moisture, smoothing wrinkles caused by dryness. The cream's unique texture makes the skin feel velvety soft and provides an ideal foundation for eye make-up.

## Anti-Ageing

### Fruit acids – the AHA effect

**!** Fruit acids (known as AHAs) exhibit a wide action spectrum. If used at higher concentrations their characteristics include among others: a peeling effect, hydration, removal of horn cells, bleaching and radical catching. Ideal areas of applications for AHAs are mild acne, actinic keratosis, fine superficial lines and so-called skin refreshing treatments. Furthermore, they create a transport effect for active ingredients applied immediately afterwards.

#### Use and impact of fruit acids

- Anti-ageing care
- Stimulation of skin regeneration during long-term application
- Combination of fruit acids with intensive effects
- Refined skin appearance
- Protective effect against free radicals and UV-related skin damage

#### Schematic representation of the effect of fruit

#### DERMASENCE fruit acid products and peelings

**!** DERMASENCE-AHA products are the best possible way to prepare your skin prior to the application of our patented, combined peelings. Your dermatologist or your chemist will be happy to advise you on this topic. Ask them for our Peeling information brochure or request it at [info@dermasence.de](mailto:info@dermasence.de) or by calling tel. +49 251 91599-100.

## DERMASENCE fruit acid products

### AHA Effects

Mild fruit acid cream for more mature and dry as well as sun-exposed skin. The skin becomes visibly smoother and more radiant, its moisture content is increased. Green tea extract soothes the skin while red grape extracts protect against oxidative stress. The active ingredients stimulate the body's own repair functions and make the skin appear brighter and fresher.

### AHA Effects plus C

Intensive fruit acid cream for mature skin and impure combination skin. The combination of fruit acids with vitamin C delivers more powerful effects that refine your skin's appearance. Long-term application has a stimulating effect on collagen formation, the skin is regenerated and looks brighter. The rooibos extracts have a protective effect against free radicals and reduce premature loss of elasticity. Ideal when used in preparation for chemical peelings.

### AHA Body & Face Lotion

The lotion combines the positive properties of fruit acids with the soothing effects of moisturising urea compounds. It can also be used for impure, acne-prone skin as well as for face and body care. It is ideal for more mature skin as a light lotion to treat age- and intensive solar radiation-related wrinkle formation.

## RosaMin – the strong team for Rosacea

The DERMASENCE RosaMin-program is specifically designed for reddening, sensitive and reactive skin. The herbal 5-fold active complex strengthens the sensitive vessels of the skin and prevents redness and combines all products. The following natural substances are effective:

### Horse chestnut

Escin from horse chestnut

- ▶ Affects cell function positively, strengthens the capillary walls, soothes skin, anti-irritative

### Liquorice

Glycyrrhizic acid from liquorice root

- ▶ Soothing

### Asiatic pennywort

Extract from the Indian pennywort

- ▶ Promotes the regeneration of the connective tissue, strengthens the elastic fibres of the skin, increases collagen synthesis

### Marigold

Calendula flower extract

- ▶ Anti-inflammatory, healing

### Butcher's broom

Root extract from butcher's broom

- ▶ Astringent, vasoactive

The products presented on these pages integrate perfectly into the DERMASENCE programme.

## Cleansing RosaMin

### RosaMin Reinigungsemulsion

Gentle, soap-free cleansing emulsion for sensitive, rosacea-prone, reactive skin. It allows a particularly gentle cleansing without skin-rubbing. During cleansing, the delicate vessels are strengthened by the plant's 5-fold active complex. Panthenol and allantoin soothe the skin. The light, refreshing emulsion leaves a pleasant feeling on the skin.

## Day and night care RosaMin

### RosaMin Emulsion

Light, vasodilating emulsion for sensitive, reddening and reactive skin. The herbal 5-fold active complex reduces redness and inflammatory processes, and the panthenol calms. The skin is more resistant and optimally cared for. Due to its regenerating properties, the emulsion is also particularly suitable as night care.

### RosaMin Serum

The intensely soothing serum has been specially developed for reactive skin susceptible to rosacea and reddening. The anti-redness complex of dyer's woad, plant extracts and panthenol strengthens the vessels over the long term and has an anti-inflammatory effect. The combination of hyaluronic acid, linolenic acid and a sugar complex fills up the moisture deposits and strengthens the skin barrier. The cooling serum absorbs quickly. Redness and discomfort are reduced immediately after application.

### RosaMin Getönte Tagespflege LSF 50

Toned day care with herbal 5-fold active complex strengthens the vessels and prevents inflammation. It is therefore particularly suitable for sensitive, reddening and reactive skin. Microencapsulated pigments hide redness and then lay on the skin as a tint. The corrective day care adapts individually to the skin tone. The high UV protection protects against sun-induced damage and prevents the creation of new irritations.

Find out more about the effectiveness of the DERMASENCE **RosaMin Getönte Tagespflege LSF 50** on our homepage!

## Special care +

### Face and body

**!** Many skin problems require tailor-made products, which are also frequently used as therapy accompanying care products for problem skin.

Here DERMASENCE offers you a selection of special care products, which can be used for specific skin problems.

### Night care for impure skin

#### Seborra Serum

The high-quality, skin-clarifying serum is ideal as a night care for oily, impure and acne-prone skin. An innovative complex of dyer's woad and other plant extracts which has anti-inflammatory properties. The mild fruit acid complex reduces inflammation and clears clogged pores. The serum soothes irritated skin, reduces redness and can prevent the development of pimples. It leaves a healthy and clear complexion.

### Acute care for impure skin

#### Seborra Akutroller

##### Spotstop - acts quickly and precisely against breakouts

The easily applied fluid complements the Seborra Gel and is ideal for use at the first sign of a pimple or breakout developing. Boswellia extracts counteract redness and swelling. Feelings of pressure and irritation are quickly reduced. Gluconolactone is a mild natural fruit acid, which effectively counteracts renewed comedone formation and refines skin appearance. The roll-on features a stainless steel ball that guarantees hygienic application. Promptly apply the gel several times a day as soon as signs of redness, swelling or feelings of pressure appear.

### Repair foam for irritated skin

#### Zincutan

With a unique triple active complex

 Zinc  Silver  Panthenol

The micronised repair foam is used as an intensive treatment for irritated skin. It takes advantage of the antibacterial effects of silver ions, zinc and panthenol to support the skin's regeneration processes. Zincutan is ideal for use after dermatological, aesthetic treatments as well as for those with acne-prone, irritated skin. It can be applied without friction and gently conceals slightly reddened skin.

## Care for irritated skin

### Aloe Vera Active Gel

#### Cooling mask for skin irritations

The cooling gel mask for your face, neck and décolleté with anti-irritative effect is ideal for blemished, dehydrated skin. The soothing gel is extracted from the mesophyll of the aloe vera plant (*Aloe barbadensis*) and stimulates your skin's own reparative properties. Your skin becomes smooth and optimally rehydrated. The gel also provides cooling in case of sunburns and insect bites.

## Care for barrier-damaged skin

### BarrioPro Gesichtsemulsion

#### Has regenerating and anti-irritative effects

Special care for irritated skin that is prone to redness. Missensations are reduced and the skin's barrier is regenerated. Ideal for use after aesthetic procedures. The skin is regenerated and develops a fresh complexion.

## Intensive care for wounds and scars

### BarrioPro Wund- und Narbenpflegeemulsion

#### Treats injured skin

The intensive care product regulates wound healing problems, such as burns, redness, skin lesions and unsightly skin appearance. Polidocanol delivers a very special immediate effect; it lessens missensations, such as itchiness and skin tightness, directly. The emulsion supports the promotion of wound healing early on, in order to counteract unsightly scarring.

## Care for pigment disorders

### MelaBlok

#### Lightening fluid, inhibits melanin formation

This intensive care product uses a tyrosinase inhibitor to lighten pigment stains and reduce melanin formation. The lightening fluid contains a fruit acid complex, vitamin C and Q-10, which protect the skin from oxidative cell damage and ensure a uniform complexion. In the event of prolonged UV exposure you must use it in combination a high sun protection factor.

## Body care

### Lotions | Emulsions | Creams

#### Over the course of time

**!** Throughout our lifetime our skin changes – it becomes thinner, often dryer, too. Your daily skin care should be in harmony with this change. With a consistent body care regime you can combat skin barrier disorders, environmental influences, ageing processes and other skin problems.

### Products personal hygiene

#### Adtop Creme

#### A skin barrier that breathes.

This perfume-free cream is an effective care product for dry skin that is prone to neurodermatitis. Due to its amphiphilic nature it forms an effective, skin-friendly protective film, which is breathable and binds moisture. It reduces roughness and any potential exposure to mechanical stimuli. Bisabolol eliminates skin tightness and calms the skin. Daily use regenerates the skin's barrier function. The product is ideal for use as part of interval therapy for example in eczema-prone skin. The cream is non-greasy and is absorbed instantly. It is also suitable for sensitive children's skin.

## Body care

Lotions | Emulsions | Creams

### Products personal hygiene

#### Adtop plus

The cream has been specially developed for dry and very dry skin. It combines the positive characteristics of Adtop Creme cream with the moisturising effects of urea (10%) and glycerol. As a result rough, scaly skin becomes soft and supple without the creation of an oily layer. Ideal for us as part of interval therapy for neurodermatitis-prone skin.

#### Adtop plus 40

This intensive care product has been specifically designed for extremely dry and chapped skin. The high proportion of urea (40%) peels away the skin's top layer (keratolytic effect) and frees it of excessive cornifications. The skin becomes smoother and signs of roughness and cracks, especially on your hand and feet, are diminished. Also suitable for the treatment and reduction of calloused areas on hands and feet in psoriasis patients.

#### BarrioPro Körperemulsion

The moisturising body emulsion nourishes and revitalises irritated skin. Apply daily to reduce missensations and redness anywhere on your body. It will make your skin supple and is also an ideal care product after aesthetic treatments.

## Body care

### Lotions | Creams

#### Products personal hygiene

##### Skinpro Lipo

The lipid lotion nourishes dry to very dry and flaky skin. It supplies the skin with moisture and makes it supple thanks to the active hydrating ingredients urea and glycerine. Nourishing oils, such as olive and jojoba oil, sustainably prevent skin from drying out.

##### Polaneth Lotion

**Strong care that really works.**

The perfume-free lotion has been specifically designed for ageing skin, which often tends to be extremely dry, flaky and itchy. It reduces the perception and missensation of itchiness. Moisture-regulating properties and high-quality plant oils protect the skin against drying out. The quickly absorbed lotion can also be used after sunbathing when skin feels tight and itchy.

#### Schematic representation of dry, irritated and normalised skin

Dry, irritated skin

Normalised skin

### Medicinal herb woad – special protection from Nature herself

Historical reports bear witness to the impressive effect of woad. As a cultivated plant, it had long disappeared from Europe – DERMASENCE has now grown it for the controlled extraction of the active substances and rediscovered the power of nature for DERMASENCE Vitop forte care cream. Together with a network of experts and state-of-the-art methods, DERMASENCE has succeeded in uncovering a natural treasure for medical skin care.

## Products personal hygiene

### Vitop forte

A balm for the skin through the restorative natural power of woad. DERMASENCE Vitop forte reduces skin irritations and is ideal for use on inflamed, dry skin affected by neurodermatitis. With its hypoallergenic, active complex including woad, aloe vera and green tea, this intensive care complex can effectively prevent the symptoms of inflammation when used regularly. The care cream forms a breathable protective film on the skin, shielding it from mechanical irritations. It is ultra-hypoallergenic and suitable for children aged three years and above.

### Vitop forte Junior

The care cream provides a breathable protective screen for delicate baby skin. With the unique active complex of dyer's woad, aloe vera and green tea, the cream can noticeably soothe irritated baby skin and soften signs of inflammation. Natural oils strengthen the skin barrier. Dry skin is moisturised and cared for. The perfume-free formulation is particularly skin-friendly and is suitable for the delicate skin of babies from three months, as well as for sensitive adult skin.

## Hair care

### Hair and scalp

Beautiful hair and a healthy scalp go together. Imbalances in skin functions often develop. As a result your scalp will become too oily or too dry – dandruff is the consequence. Irritation of the scalp can also cause itchiness. All of this is revealed by your hair's appearance. An intolerance to the active ingredients in shampoos can also cause scalp and hair problems.

The DERMASENCE hair care programme offers products, which can really help in these situations – they are tailor-made for your scalp problem.

#### Products hair care

##### Haircare Shampoo

The shampoo uses the active ingredient Octopirox<sup>®</sup> to stop dandruff and oiliness of the scalp. It can be used to support treatments for itchy scalps. Nourishing substances, such as allantoin and panthenol keep the scalp supple. Does not contain betaine.

##### Milchserum Shampoo

The mild, pH-neutral care shampoo, which contains milk serum, is particularly good for individuals who have sensitive skin and scalp. Nourishing ingredients protect against and prevent skin irritation. Proteins keep hair supple and nourish the scalp. The shampoo makes combing stressed hair easier. Also ideal for children. Does not contain betaine.

## Products hair care

### Medizinal Shampoo

The shampoo contains ichthyol to gently and thoroughly treat dandruff, dry and itchy scalps. Precious care complexes improve the hair structure and recreate balance. Does not contain betaine. If necessary DERMASENCE Medizinal Shampoo can be used alternately with our mild DERMASENCE Milchserum Shampoo.

### Selensiv Shampoo

The medicated shampoo uses the active ingredient selenium disulphide to counteract dry, flaky dandruff and uses anti-recurrence technology to prevent its reappearance. Tea tree oil delivers natural anti-microbial effects every time you wash your hair. Moisturising ingredients further counteract dryness.

## Further body care products

Beautiful nails not only have an aesthetic effect. Sturdy nail plates and well-maintained skin surrounding them can counteract the potential development of fungal infections. Swimming pools, changing rooms and moisture build-ups in trainers in particular create perfect conditions for skin and nail fungi.

 Good to know: With healthy nails and well-maintained skin surrounding your nails you can protect yourself against these infections.

### Products foot care

#### Mycolex Pflegeschaum

The fragrance-free care foam is ideal for dry and stressed feet. The moisture complex of urea, glycerine and allantoin makes the skin smoother and more elastic. Especially for dryness at the heels, cracked skin at the balls of the feet and itching between the toes, the foam makes you feel better again. Resistance to fungus-sensitive and stressed feet is increased and the microfine foam texture is immediately absorbed without being greasy.

### Deodorant

#### Cream Deo

The mild, skin-friendly antiperspirant and deodorant is also particularly good for sensitive skin. It inhibits excessive perspiration and maintains freshness for longer. The deodorant cream contains lipid level increasing oils, is dye- and alcohol-free and can be applied after epilation.

## Dietary supplements

### Body

#### Support from within

In our modern lives a healthy, balanced diet is often neglected due to a lack of time. Furthermore, factors such as stress and allergies often further weaken the immune system. Help to strengthen your body's immune system by eating a healthy and balanced diet. The DERMASENCE dietary supplement offers support by providing you with a range of essential vitamins and minerals.

### Dietary supplements

#### H<sup>3</sup> Komplex

DERMASENCE H<sup>3</sup> Komplex provides important vitamins and trace elements. The tablets are vegan and lactose-free. They prevent unwanted skin changes such as brittle lips, intervene in hair and nail metabolism and improve sun tolerance.

For content-specific information, see the health claims on the outer packaging and on the package leaflet.

## Feel great in your skin!

### **Many dermatologists trust in our products.**

DERMASENCE is being developed in collaboration with dermatologists. The products are often used for skin problems and to supplement aesthetic procedures.

Efficacy and tolerability are the DERMASENCE's focus – our formulations are kept up to date with the latest scientific developments.

This medicinal skin care is available in pharmacies – recommended by dermatologists and ideal for the whole family.

## Our care system

The unique system will help you to quickly and easily put together the perfect care routine for your skin type.

### The colour code

It shows you how suitable each product is for a particular skin type. Multiple coloured dots are possible.

-  **Normal skin**  
Has a balanced lipid and moisture balance.
-  **Dry skin**  
Is prone to irritation and sensitive to environmental influences and ingredients and/or prone to allergies.
-  **Oily, acne-prone skin**  
Is shiny with coarse pores and frequently develops blackheads and pimples.
-  **Anti-aging care for more mature skin**  
Skin that is shiny with coarse pores and frequently develops blackheads and pimples. Skin that has developed its first fine lines and lost some elasticity and gratefully absorbs special active ingredients; it should be protected from UV radiation.

### The care symbols on our products

These will give you guidance on how to use the products

-  **Cleansing**
-  **Daily care** with UV protection | sun protection
-  **Night care**
-  **Daily care** – these products can be used daily in the morning and evening.
-  **Special care** – is often used alongside therapy treatments for problem skin
-  **Facial mask**
-  **Eye care cream**

### The lipid levels shown on the products

They show whether it's a non-oily or lipid-rich product.

-  **0 Non-oily product**
-  **1 Products with a low lipid content**  
For oily skin or combination skin
-  **2 Products with a medium lipid content**  
Used as day care for normal skin; may at times also be used as night care for oily skin
-  **3 Products with a higher lipid content**  
For rather dry skin or as a night care product for normal skin
-  **4 Products with a high lipid content**  
For very dry skin

## **DERMASENCE – A unique care system**

In order to make it easier for you to find your way around, we will explain the unique DERMASENCE care system in the fold-out product overview, which also includes a table organised according to care recommendations. In this way you can easily put together your own personalised programme.

### **You don't know how to rate your skin type?**

You can obtain detailed information about your personal skin type from your pharmacy. Our skin analysis available at [www.dermasence.de](http://www.dermasence.de) will also help you.

You can obtain DERMASENCE skin care products from your chemist who will be happy to advise you.

Your DERMASENCE team

**DERMASENCE**  Healthy skin with our system!

# Medicated **skin care**

for the whole family!
